

RECEIVER COMPATIBILITY

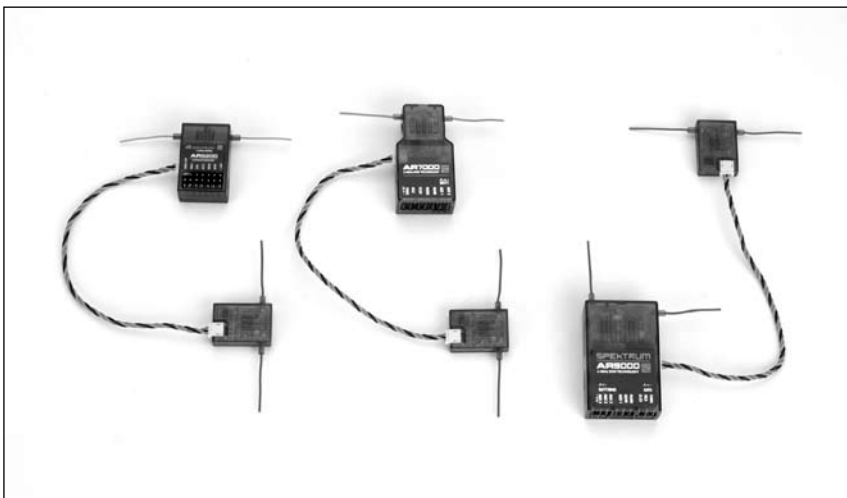

You'll be glad to know the DX6i is compatible with all current Spektrum and JR brands of DSM aircraft receivers. However when using the DX6i with one of the Spektrum parkflyer receivers, like the AR6000, AR6100, AR6100E, AR6300, etc., it's imperative that these receivers be limited to flying parkflyer-type aircraft and mini and micro helicopters only.

PARKFLYER RECEIVERS

- AR6000
- AR6100
- AR6100E
- AR6300

FULL RANGE DSM2 AIRCRAFT RECEIVERS

- AR6200
- AR7000
- AR9000
